

Nos souvenirs de notre voyage en Normandie

Reggie:

The French trip was a truly great experience. I remember going around with my friends trying to navigate and complete mini-tasks set by the teachers during our various visits. It was hard at first but we really saw our French skills previously learnt come into play which was new and refreshing.

Every night we would all sit together for food and it was a really good time to chat and even one night we had snails and another we had DIY pizza!

We visited The American Cemetery which was very sad yet it was good to have some time to remember those who had lost their lives for the good of the world we live in today and to appreciate their sacrifices. We also visited: Caen Castle, Bayeux, Honfleur, a French market, had a talent contest and more.

I honestly thought this trip was perfect, the memories have stayed with me. I appreciate the friends I met on this trip and the friendships I strengthened. I also thank all the staff involved in organising it greatly for providing me with a lifelong experience,

Annalysa :

J'aimais le voyage en Normandie parce que c'était très amusant et ça m'a fait rire!

I remember that the atmosphere was like no other and I wish I could go back and experience it all over again. My favourite part of the trip was definitely when we went to the cheese farm because the whole tour was in French and I liked how I had to work on my listening skills while still having fun.

I enjoyed the trip a lot and I hope other people get to go soon.

Charlie:

J'adorais mon voyage en Normandie! Salut! My name is Charlie and I took part in the 2019 French trip, one of the greatest things I've done with St Richards! During my time there we were able to experience a range of different parts of French culture, from their architecture to the sheer challenge of using the language. It was a time for learning and great fun!

My favourite part of the trip was when we visited the Normandy American Cemetery, where we were immersed in the history of France and got to pay respect to some of the heroes who fought for it.

No matter what you think is fun you simply must go to Normandy and enjoy being French! From the food to the people, everything was perfect!
